

Product Information

AVENO Multispray 40

0002-300010

Description

AVENO Multispray is a universal cleaning, care and lubricating spray. Selected, high-quality ingredients ensure good effectiveness for applications such as cleaning, care, preservation, lubrication, contact improvement, water displacement, etc.

Instructions for use

Due to its properties, AVENO Multispray has a very wide range of applications. Due to the special formulation, many areas of application are possible with this product. As a lubricant for joints, hinges, guides, sliding and ball bearings, rust remover for rusted screw and metal metal connections, care products for measuring tools and precision equipment. It removes flash rust and preserves, improves electrical contact contact properties, prevents leakage currents and displaces water. As a cleaning agent, it dissolves encrusted, resinified lubricant residues and leaves behind a wafer-thin, antistatic protective film. The surface should be roughly pre-cleaned. Shake can vigorously. Spray from a distance of approx. 20 - 30 cm away. If necessary, rub in with a soft cloth. The modern spray head enables both precise and large-area application.

Properties

- Infiltrates rust and displaces moisture
- Loosens corroded connections
- Prevents leakage currents
- Dissolves limescale residues
- Silicone-free
- Lubricates stain-free and almost invisibly
- Eliminates long-lasting squeaking and creaking noises
- Protects against oxidation and corrosion
- Cleans and maintains metallic surfaces

Technical specifications

Properties	Data	Unit	Testing under
Appearance	YELLOWBROWN		VISUELL
Explosion limits (Vol%)	1.5 — 10.9	% (v/v)	
Steam pressure	ca. 3	hPa	
Weight percentage of organic solvents %	71	% (VOC)	
Weight percentage of organic solvents g/l	489	g/l (VOC)	
Density at 15°C	0.7825 — 0.7958	Gramm/cm ³
